

Job Site Banners Through LECET

If you have a construction project that is being built all-union, you should be proud. We want to help promote the value of union construction and advertise which projects are being built by union contractors employing skilled Laborers.

Call us or fill out this form to have us make you a banner for your union construction site. We will put our logo on it, along with any other applicable logos, including general & sub contractors, developer, contractor associations, architect, etc. As many or as few as are needed. It will contain a message similar to the “Built Better, Built Safer, Built Union” message pictured below and will be printed on sturdy, all-weather banner material ready to display on your site.

Send in this form today to take advantage of this opportunity to advertise your project as a safe, expertly constructed project employing skilled union labor.

Number of Banners (if you'd like banners for several sites, please fill out one form for each) _____

Size _____ Project Name & Location _____

Logos to be Included (contractor, subcontractors, developer, etc) _____

Contact Person & Number _____
